

Tomorrow's Solution , Today ...

Product Overview

### MD-MMD | Centrifugal Pumps in cast iron

Suitable for increasing the water pressure.  
Useful for industrial applications, building services  
and water supply

### VMPS-VMPG | Vertical Multistage Pumps in AISI 304

Suitable for increasing the hot water and cool  
water pressure. Useful for industrial applications,  
building services and water supply

### FS | End Suction Centrifugal Pumps in cast iron

suitable for increasing the water pressure.useful for  
industrial applications, building services and water  
supply

### EBS-OM/ONK | 4", 6" Borehole Centrifugal Pumps in AISI 304

Suitable for extracting water from deep and shallow  
wells and agricultural applications.

### Booster Pump

Suitable to provide a constant range of pressure.  
Useful for industrial applications, building services  
and water supply

# ABARA Pumps

## Company Profile

ABARA Pump Industries Co. was established in 1994 with the mission of supplying various products and proposing novel solutions in fluid-related industries. The company succeeded in attracting foreign investment from the most famous Japanese pump manufacturer right after being established on the basis of its high international reputation. ABARA was able to introduce a wide variety of standard pumps with high levels of quality to the market. The market and industry's acceptance of the pumps has led to increased diversity of the package of products over the years. Japan's participation in the ABARA also led to the transfer of Japanese knowledge and technology to ABARA and led to establish local production lines for centrifugal pumps. The core competency of ABARA with the ABR brand is using modern technology and providing a wide variety of premium quality products with competitive prices. ABARA is committed to customers by providing supportive aftersales service. **All products come with 18 months warranty.** Moreover, our technicians are easily accessible to give technical advice for the best solutions and select the best fitted products.

## نبذة عن الشركة

شركة ABARA لصناعة المضخات تأسست في عام ١٩٩٤ مع مهمة تزويد مختلف المنتجات واقتراح حلول جديدة في الصناعات ذات الصلة السوائل. نجحت الشركة في جذب الاستثمارات الأجنبية من أشهر مصنع المضخات الياباني بعد تأسيسها على أساس سمعتها الدولية العالمية. تمكنت ABARA من تقديم مجموعة واسعة من المضخات القياسية بمستويات عالية من الجودة في السوق، أدى قبول السوق والصناعة للمضخات إلى زيادة تنوع المنتجات على مر السنين. أدت مشاركة اليابان في ABARA أيضًا إلى نقل المعرفة والتكنولوجيا اليابانية إلى ABARA وأدت إلى إنشاء خطوط إنتاج محلية لمضخات الطرد المركزي. إن الكفاءة الأساسية لـABARA مع العلامة التجارية ABR تستند إلى التكنولوجيا الحديثة وتتوفر مجموعة واسعة من المنتجات عالية الجودة بأسعار تنافسية. تلتزم ABARA بالعملاء من خلال توفير خدمة ما بعد البيع الداعمة. جميع المنتجات لديها ١٨ شهراً الضمان. علاوة على ذلك ، يمكن الوصول بسهولة إلى الفنيين لتقديم المشورة الفنية لأفضل الحلول و اختيار أفضل المنتجات المجهزة.

## Şirket profili

ABARA'yla Pompa Sanayi A.Ş. çeşitli ürünler temin ve sıvı ile ilgili sanayi içinde, yeni çözüm öneren misyon 1994 kurulmuştur. şirket sağ yüksek uluslararası üne temelinde kuruluyor sonra en ünlü Japon pompa üreticisinden yabancı yatırım çekmeyi başardı. ABARA'yla pazar kalite düzeyi yüksek olan standart pompa çeşitli tanıtmak başardı. Pazar ve pompaların endüstrinin kabul yilda ürünlerin paketin artan çeşitliliğine yol açmıştır. ABARA'yla Japonya'nın katılımı da ABARA'yla Japon bilgi ve teknoloji transferi yol açtı ve santrifüj pompalar için yerel üretim hatları stablish yol açtı. ABR markası ile ABARA'yla çekirdek yetkinlik, modern teknoloji kullanarak ve rekabetçi fiyatları ile üstün kaliteli ürünler geniş bir yelpazede sunmaktadır. ABARA'yla destekleyici satış sonrası hizmet sunarak müşterilerine taahhüt eder. Tüm ürünler 18 ay garantilidir. Ayrıca, bizim teknisyenleri iyi çözümler için teknik tavsiyelerde ve iyi donatılmış ürünlerini seçmek için kolayca ulaşılabilir.

**AGA** | Self Priming Pumps in cast iron

Suitable for increasing the water pressure. Useful for building services and water supply

**PRA** | Peripheral Pumps in cast iron

Suitable for increasing the hot water and cool water pressure. Useful for industrial applications, building services and water supply

**SDA** | Submersible Drainage

Suitable for increasing the hot water and cool water pressure. Useful for industrial applications, building services and water supply

**SDJ** | Submersible Drainage

**CMA** | Centrifugal Pumps-Single Impeller in cast iron

**CDA** | Centrifugal Pumps-Twin Impeller in cast iron

Suitable for increasing the water pressure. Useful for industrial applications, building services and water supply

**SSI** | Submersible Sewage

**SSA** | Submersible Sewage

**SSH** | Submersible Sewage

Suitable for increasing the hot water and cool water pressure. Useful for industrial applications, building services and water supply
